

#### PETZL Tikka XP Headlamp E86P

The Tikka XP has a focused superbright LED, and is packed with many features!

- 3 Lighting Levels and a Flashing Mode.
- A Diffuser to give a wide beam which can slide to the side to give you a concentrated spot.
- A BOOST MODE that produces about 50% more light on the maximum setting.
- An automatic power limiter so that you cannot overheat the LED in BOOST MODE
- A battery life indicator.
- Weight 95g with 3 x AAA batteries (Included)

#### PETZL Industrial Descender I'D

Self braking descender and belay device fitted with an anti-panic function that locks the I'D if the handle is pulled too hard. Available in two sizes, for ropes 11.5-13mm diameter, or 10-11.5 mm diameter.

#### PETZL ASAP + ASAP'sorber 350gm

Designed to arrest falls on single kernmantle construction ropes of 10-13mm diameter. Works on vertical or inclined rope and locks onto the rope if descent is too fast or if it is shock loaded. This device will also lock if grabbed by the user. OK Triact Karabiner included. Only supplied complete with ASAP'sorber (20cm or 40cm).

#### OMEGA PACIFIC Steel 3-S TriLok D Karabiner

3-Stage Quik-Lok mechanism, 11 mm, available with or without captive eye... Gate Opening: 22mm  
Strength: Major Axis 53kN, Open Gate 14kN, Minor Axis 9kN, Weight 220gm.

#### BLUE WATER Assaultline++ 11.2mm Black

Black Assaultline is THE original low visibility, low elongation/static rope. Black Assaultline is designed specifically for applications where low visibility is required. It has the same superior design and quality as the BWII++ series of ropes. Complies with AS4142.3.
